Redwood Run 2008

Here's the late breaking images from last years redwood Run in Northern California _____ **Page 18**

Valerie - Lady on a Panhead

A while back we featured a Panhead built by Freeman Choppers, here's another look at the model and the Bike ____ **Page 20**

From the Editors Seat

Spring has sprung and we have hit the ground with the rubber burnin'. We are gearing up for the only Harley Drags we have on the schedule this year in July. It's looking to be a good day at the races up in Monroe Washington, set it on your calendar.

But I guess the big news is our transition to online publishing of the AAMM. Like the trends across the board in the publishing industry, we have had to make sway ourselves. At allamericanmotorcycle.com you will find links to PDF versions of each issue. A free membership allows us to track exposures and keep or increase our advertisers so we can continue. We want to hear from you - contact us on the website or use the new form below to tell us if you would support paid subscriptions so we could return to printing and mailing to you and our dealers.

& Whitewall

Women in Chaps - Behind the Scenes

This must be the perfect job. Sitting around taking pictures of bee-wee-tee-full Babes, draped all over and on some really awe inspiring Harley iron. One of the other reporters (No names mentioned Mr. Brown) here at this rag got his scrawny butt in one of the shoots by Mr Gary Garrison a while back when we featured Gary and his bike on the cover. After a follow-up call, Mr Yours Truly got a chance for his own peek "Behind the Scenes".

Gary Garrison works harder than you would think at this. He shoots these for Calendars that he markets on his website: calendardates.com. Quality photography and publishing has made Gary pretty succesful, not to mention a crack marketing campaign that keeps him very busy. On his website you'll find similar calendar thems for a variety of hobbies and life-styles. I'm talking "Women in Waders", "Guns and Camo" with T-shirts as well as the calendars.

Continued...

More “Behind” the Scenes

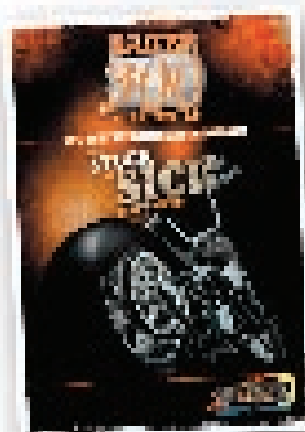

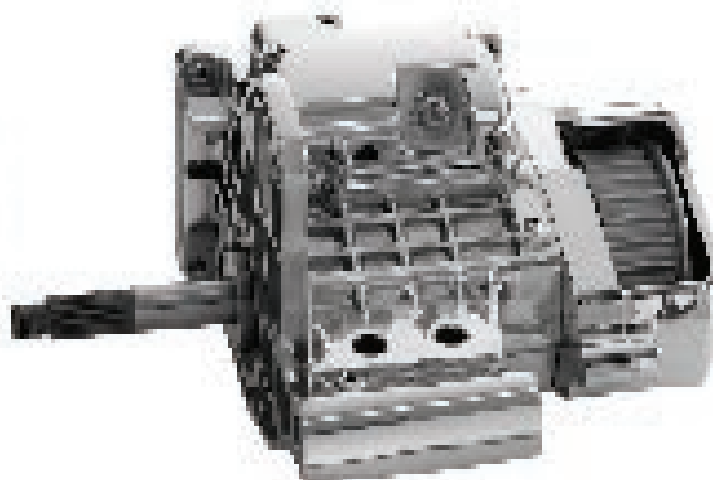

I’m just waitin for “Babes in Billiards” or “Ladies in Loungewear”, or how about “Honey’s in Hawaiiin”. OK. I better watch myself, Gary and the Boss go way back and hey, maybe I’ll get another invite one day.

The bike on this shoot was Gary’s own, that he calls “Bulldog”. Nice ride, for sure and in fact we shot a feature on it a couple of years ago and I dug out the old Cover shot for the March/April 2006 issue with Gary and the Bike on the Cover.

All in all it was a blast, wont forget it anytime soon and , well, I’m gonna go take a cold shower.....

6INT04

600 TORQUE SHOWNHEAD

BY BAKER DRIVETRAIN

DON'T LET THEM TALK ABOUT IT

Our 6-INT-04 transmission is a direct replacement for the 1970-1974 1970-1974 4-speed and is available with or without the time-honored 1970-1974 style bucket. In a 4-speed, 4th gear is 1:1. Our Showhead 6-speed overdrive has a 1:1 5th gear and a .68 6th gear for a 33% RPM reduction in cruising RPM on the highway.

DETAILS:

- Available in Steel, Blue Painted, and Vibration Shield
- Kit includes Painted Box, Pinion and Pinion Yoke
- Features Our Heavy-Duty, Smooth and New BIKER Clutch Cable Gear
- CDS Technology With Optional Gear Ratios Available
- Available With 10 Tooth Pinion
- 1970 To Early 1980 applications Only

Gordo's Garage Gamble

Story & Photos by Scooter Brown

When our new Midwest editor, Gordon Boone, was looking for a new ride, the Boss came up with a great idea. You see Gordo wanted to build a bike from the ground up - an old school garage built bike. So Mr SavageMakes a big pile of parts in his garage and invites Gordo up to make something out of the pile.

I know we made a small feature on this before and we even put Gordo and his bike on the cover last year. But it didn't do justice to Gordo's efforts so we are taking another look at the build.

Continued

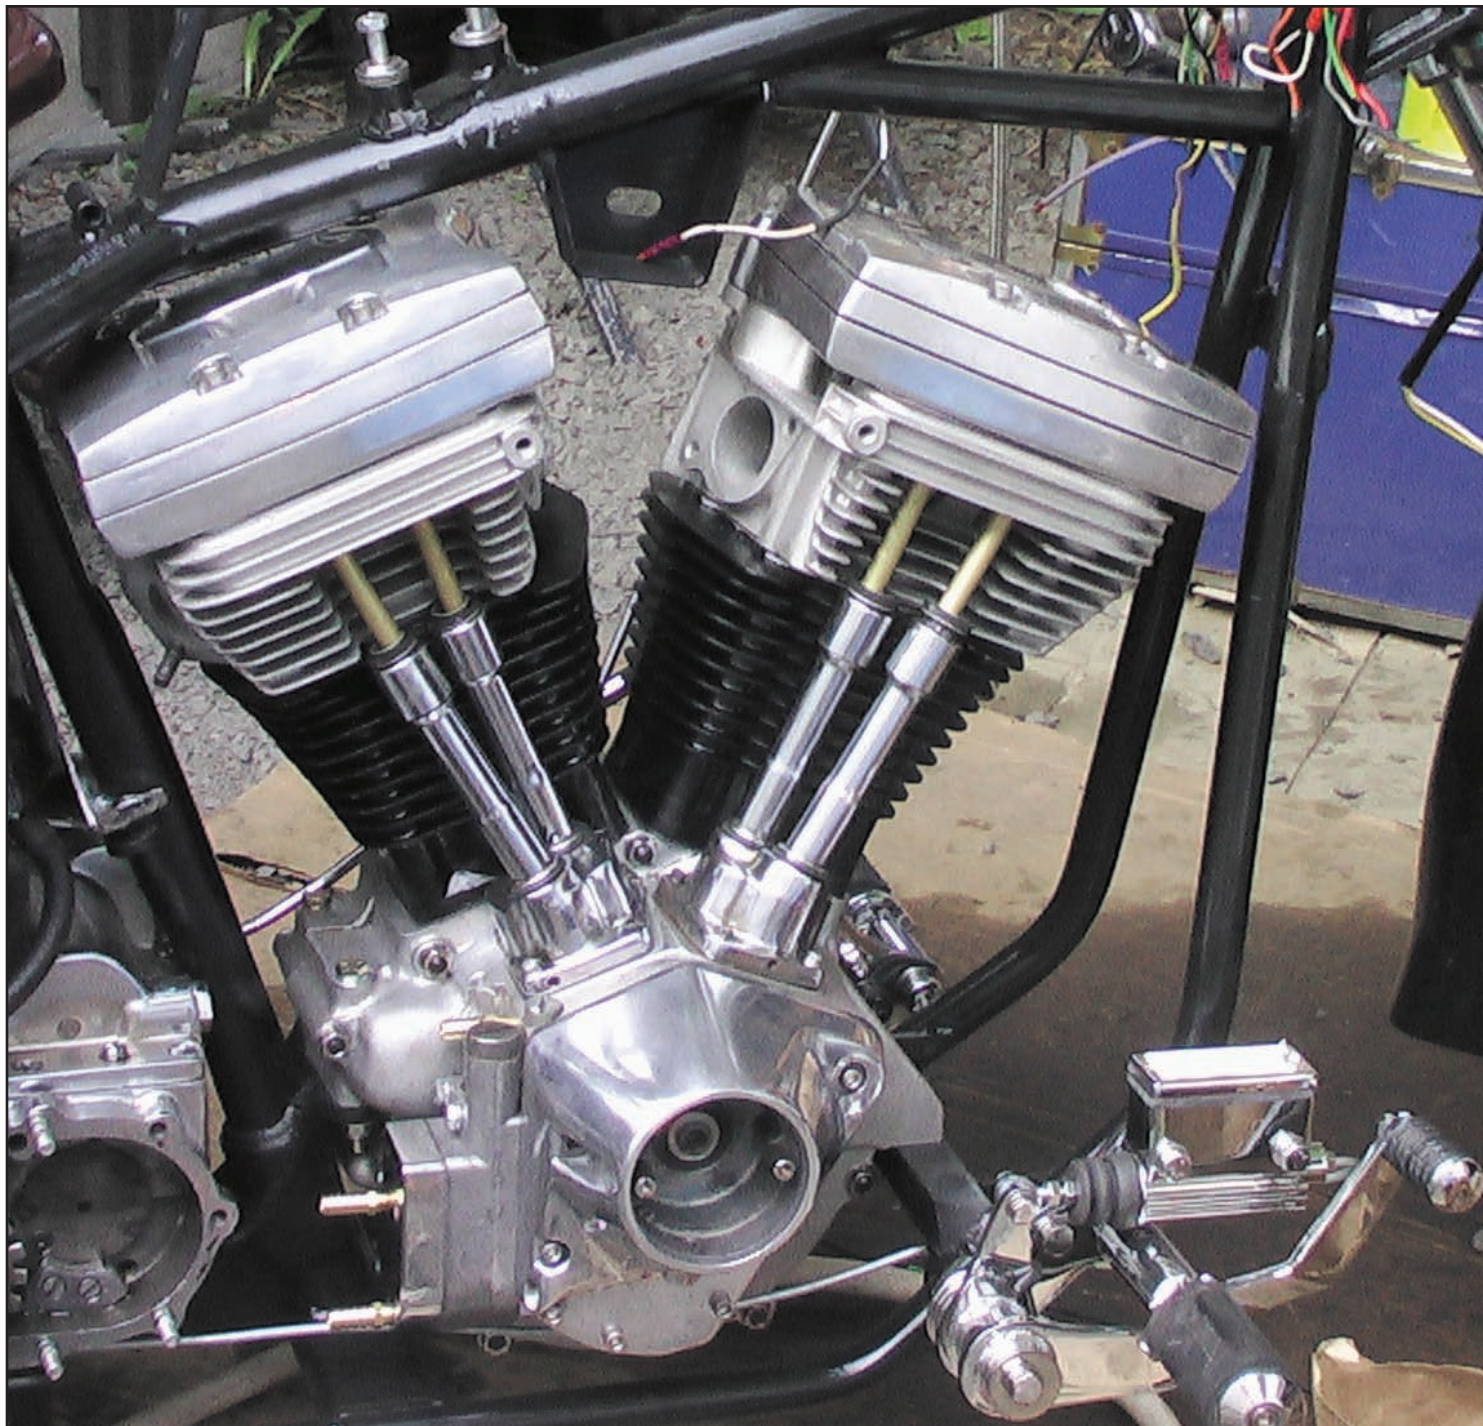

Gordo

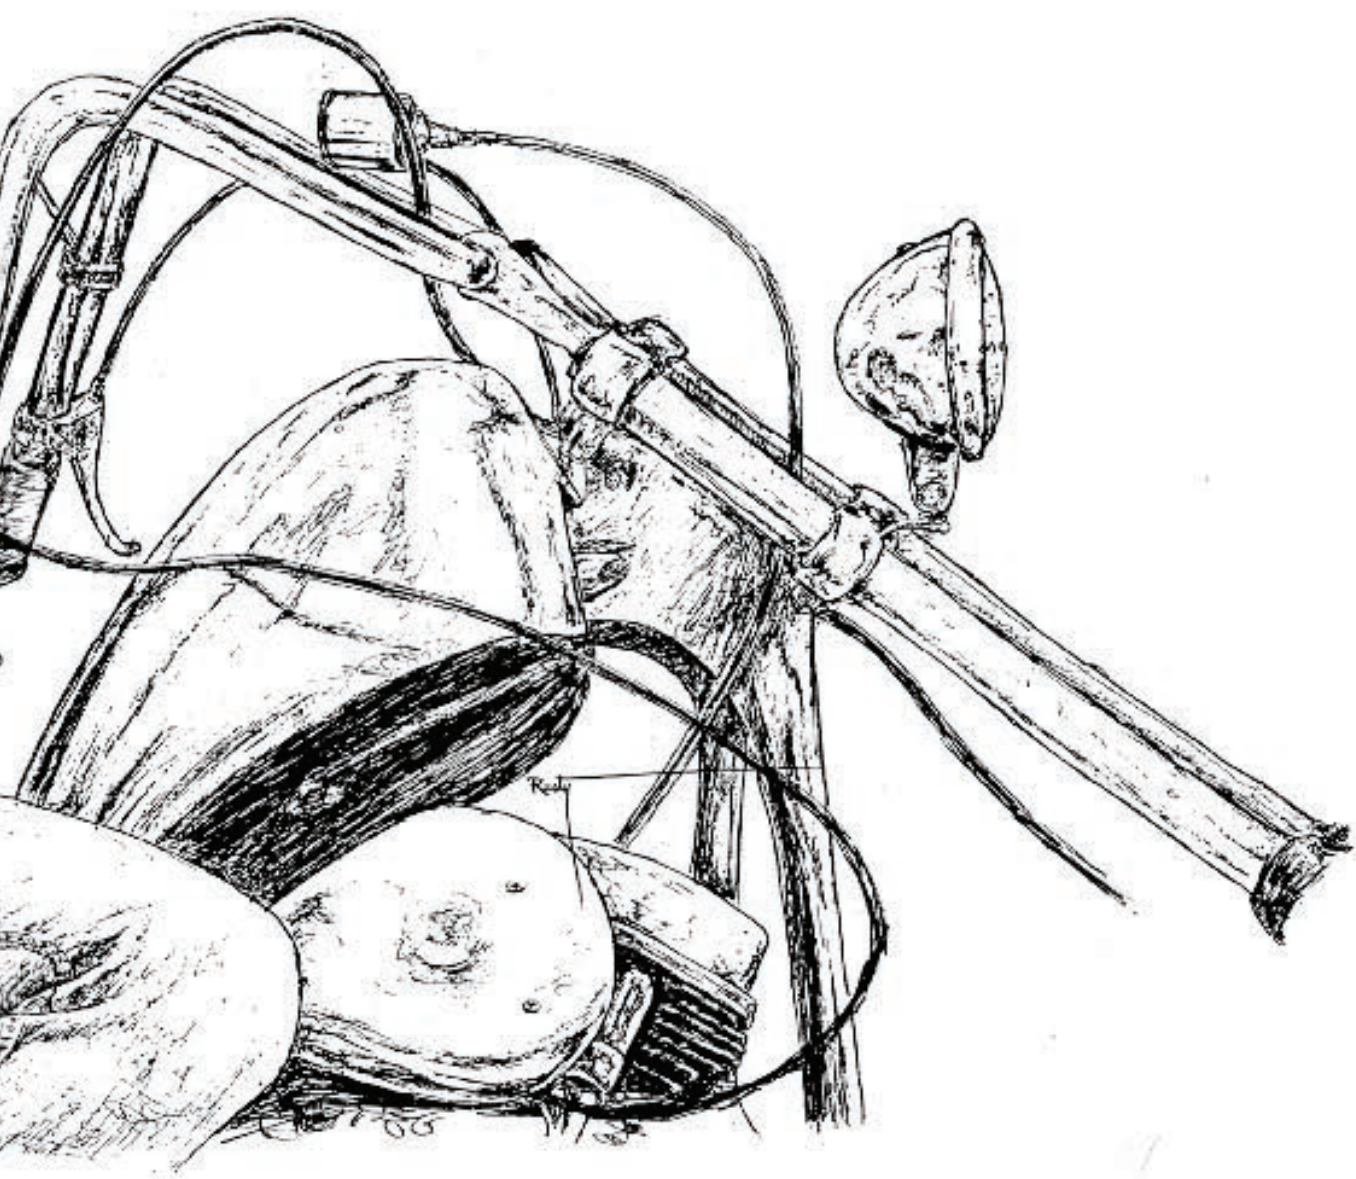

First he built the entire motor in the garage. With a set of used Evo Cases and, late model Indian flywheels - Rusty did have the Piunion changed and wheels trued by Leroy at American Iron. Gordo Lapped the cases and installed the flywheels and the lower end. Hand cut the valve seats and put the heads together and assembled the entire motor himself.

Tranny was a used 5 speed Little John tranny that Rusty provided. Gordo prepped the Paughco frame and sheet metal and took it to Walt to shoot the basic Black. From there he patiently fit, fabbed and polished parts and pieces while he finished assembling everything down to the saddlebags. Rusty jumped in to help with the wiring and she fired up when the button was pushed. Start to finish - right at 3 weeks. Gordo took her out on a short test drive and 3 days later he was tooling back to Oklahoma. Watch for Gordons first Feature on a major Oklahoma run in the next issue.

Redwood Run '08

Photos by Crowbar
Story by Milo

Well we got these in, just in time to remind us to head out to this years Redwood Run. Ol' Steve "Crowbar" Smith is one of our California editors an I'm gonna have to have a talk with him, cause all i got in the envelope was a handfull of pictures and a note that says 'Redwood '08 - Crowbar'. Man this job dont pay anything for a guy like me to have to come up with a story based on that!

I could say there was over a million bikers there and the Ladies outnumbered the dudes 3 to 1. The Rolling Stones played all weekend and they were giving away Custom Choppers for doorprizes. Hey the pictures dont lie right?

OK, I doubt any of that happened but I bet it was just about that much fun. I know, let's all go this year and see what the real deal is.....

*Lady in Red
Sittin on a
Panhead...*

Valerie

Photo and Poetry by Scooter Brown

Yea, I know, I'm no Poet - but Ladies like that stuff. This a photo of Valerie sitting on Justin Freemans old school Panhead chopper over at Freemans Choppers in Sheridan Oregon.

I shot a feature on this bike a couple of years ago and it's true that I remember this fine chopper, but I really remember this fine Lady that graced it's chassis. She is one sweetheart of a bike model and my eyeballs just couldnt get enough of her. I came across this excellent photo that wasnt used in that feature and managed to convince the Publisher to run it with a picture I had of Justin on the Bike for the cover shot. Hey Valerie, if you see this - I lost your number , give me a call so I can read you the rest of my Poem.....

since 1994

Bringing New and Innovative Products To The V-Twin Industry

Spyke Acculight Ignition System (AIS)

SPYKE
ACCULIGHT
IGNITION SYSTEM

Brainbox

PC Link

- Up to three precisely timed sparks per compression stroke.
- Optically triggered for extreme spark stability.
- Infinitely programmable curve/rev.
- SA model has many of the same features without the brainbox.

About the AIS

The definite future in ignition technology! Spyke's Fully Programmable AIS has groundbreaking features starting with four preset and fully changeable advance curves. It uses optical sensors for extreme spark stability and produces up to 3 sparks per compression stroke that are precisely and individually timed.

Coil saturation can be set to different values at different RPM's. It also features an adjustable rev limit that can be different for all curves. Two separate RPM activated switches with variable on/off RPM settings can have different values for all sensor states—for use with nitrous or auto-shifting.

Programming is done easily by an authorized dealer utilizing a PC, AIS Software and Program Link package. AIS tachometer output can be fed to almost any tach including automotive tachs. Includes automatic coil shutoff and a precision stainless steel rotor.

* SA Module has many of the same features without a brainbox.

** Program Link usage available for FP Module through authorized dealers.

A sample of the AIS program software can be downloaded at the MC Advantages web site: www.mcadvantages.com/tech.htm
